Dear Mr. Glazier:

Re: Minesite Inspection, 5M, Incorporated, Etna Mine, S/021/009,
Iron County, Utah

On December 2, 1988, Division technical staff members visited the Etna minesite. I called you on November 28, 1988 to inform you when we planned to be onsite. You indicated that you could not attend, but that Mr. Lavar Hollinshat might be working at the mine, the day of our planned inspection.

We did not have an opportunity to meet Mr. Hollinshat during our site visit. Therefore, I am sending you a copy of my field inspection report as a followup to that inspection. Please refer to the attached memo for a description of the particular areas of concern noted during the inspection.

Please call me at your earliest convenience if you have questions or concerns regarding the content of the memo. Thank you for your cooperation in resolving the onsite concerns.

Sincerely,

D. Wayne Hedberg
Senior Reclamation Specialist/
Hydrologist
